映画「はだしのゲン」を観て、戦争がとてもつらいこと、原爆がたくさんの人々を苦しめたこと、を知りました。これから先、二度と原爆で悲しむ人がいないようにと願います。

There was a note from a mother who's children asked for water, by the time she desperatly found some they were all dead This shows how ~~tragic~~ tragic it was to be injured or sick, slowly ~~dying day by day~~ passing until they die by the radiation. I wish America hadn't dropped the bomb. I feel if the knew how devastating it would be they never would have done it. If every country joins the G7 there would be no war and mass distruction.

The world is full of conflict and disagreements which cause things like this to happen. If we can listen to everybody's thoughts and be open-minded about them, we can make peaceful compromises that solve issues without bombs and war. However, this requires everybody to work together instead of against each other.

To make the world better, we should have a lot of peace treaties and agreements because that will increase our sense of kindness and change our perspective to understand how other people see the world and live their lives. It is very sad when events like this occur because it is people being mean to other people and not understanding what they have to go through.

The Atomic bomb was very devastating. Violence never does any good, yet people still physically attack others. Ideally, speech should solve the conflict, however it does not always. In my opinion, violence only elevates the conflict and causes sorrow. It does not benefit either side.

Tell people what happened on August 6, 1945.

This bookmark has been recycled from paper cranes offered at the monuments in Peace Memorial Park.

My name is Samuel. I am from Brisbane, Australia. I offer one of two cranes I was given as a gift. I will keep the other as a reminder of the feelings inspired by visiting Hiroshima.

(裏)

We only brought 17 paper cranes and made a garland out of them. We folded them on a bench at the park from recycled paper of other cranes.
