

# Promoting Peace Through Welcoming Visitors

Hiroshima was once reduced to a scorched plain by the atomic bombing.  
If visitors compare this former reality with the current reality of Hiroshima,  
which has made a dramatic recovery out of the ruins to become the beautiful city that it is today,  
there is no doubt that they will realize the preciousness of peace and reflect on the indomitable  
spirit of humanity and the power to turn adversity into a driving force for growth.

Initiatives that aim to increase visitors for the reasons listed above are known as  
Promoting Peace Through Welcoming Visitors initiatives, and as a part of these initiatives,  
peace-related culture and arts events will be held around the city.

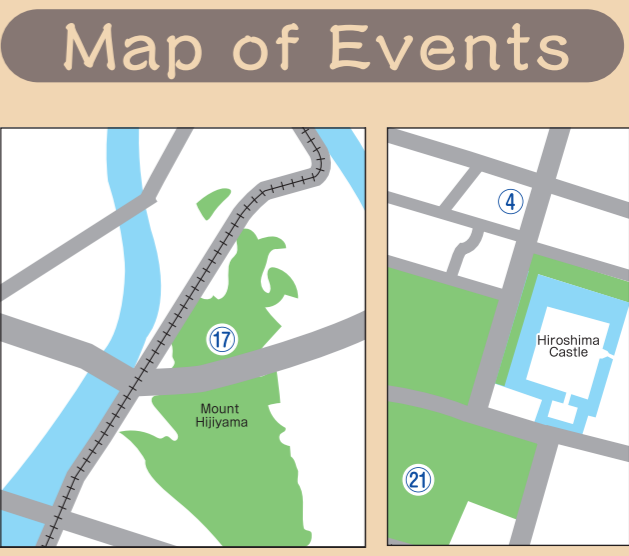

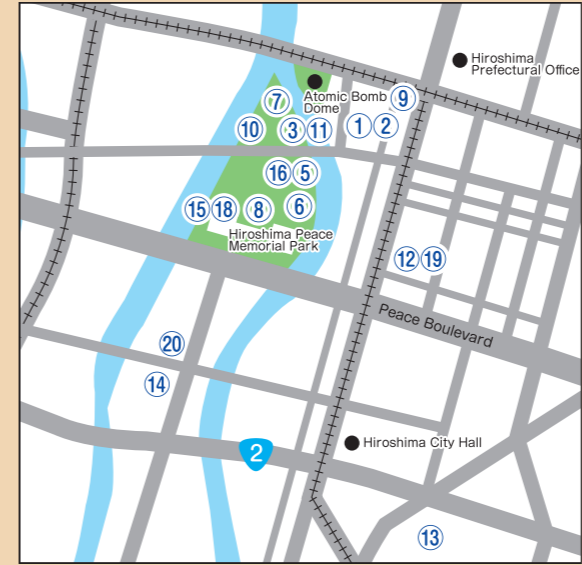

Observing 80 years since the atomic bombing,  
we hope that you will join us for these events and reflect upon the peace that we currently enjoy.
