

Folding Instructions for the Hiroshima Pocket Peace Guide

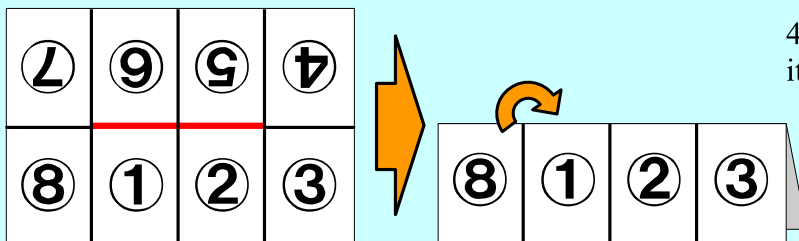

1) Print out the PDF Pocket Peace Guide, with the map on the reverse side. Place the paper map side down and fold the paper in half along the horizontal dotted line. Unfold the paper and fold it in half again along the vertical dotted line.

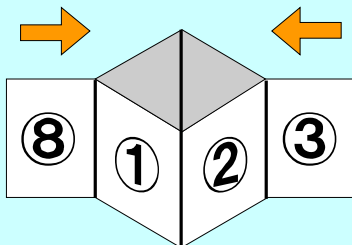

2) With the page still folded vertically, fold both ends, opposite of each other so that both edges of the paper line up with the middle vertical fold. Now you have folds that divide the paper into 8 pages.

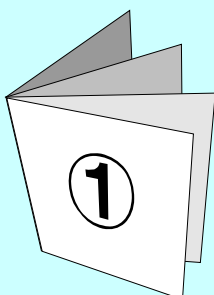

3) Unfold the last two folds just made so that the only fold remaining is the middle vertical fold. Using scissors, cut along the middle of horizontal dotted line between pages 1 and 6, and 5 and 2.

4) Unfold the paper entirely and refold it along the horizontal dotted line.

5) As shown in the picture, push the uncut portions of the page together so that the vertical folds separate, creating a standing paper cross.

6) Locate page 1 and 8 and fold them opposite each other. Now, you have your very own Hiroshima Pocket Peace Guide.
