

February 12, 2019

The Honorable Donald J. Trump
President
The United States of America

Request for your visit to the A-bombed cities of Hiroshima and Nagasaki

Excellency:

We hope this letter finds you in the best of health and spirits.

We would like to request that you visit the A-bombed cities of Hiroshima and Nagasaki on the occasion of the G20 Osaka Summit to be held this June.

The atomic bombs dropped on Hiroshima and Nagasaki in August 1945 reduced our cities to ashes in an instant and took many precious lives. Our *hibakusha* who managed to survive, while suffering the aftereffects of radiation and facing discrimination and prejudice, continue to tell their painful stories to ensure that no one else in the world experiences the horror of another nuclear attack. Now their average age is over 82 and their ardent wish is nothing but the realization of a world free from nuclear weapons.

Through the visits to our cities, we would like for you to deepen your understanding of the actual damage wrought by a single atomic bomb and the *hibakusha*'s ardent wish for peace. We also sincerely hope that you will share the recognition that a world without nuclear weapons is our common goal, and take actions towards the abolition of nuclear weapons with reason and insight as we call on all world leaders.

Today, more than 14,000 nuclear warheads still remain, and as long as such weapons exist, so too does the danger remain that the horrors seen in Hiroshima and Nagasaki will be repeated, by intent or accident, plunging people into fear and agony. Under these circumstances, the role of the United States, a highly influential nuclear superpower, is ever growing. We earnestly hope that you will make use of your leadership to pave the way towards the eradication of nuclear weapons, overcoming differences between nations in their positions and approaches.

We, the citizens of the A-bombed cities, will readily welcome you and hope to work with you to rid the world of nuclear weapons.

We would also be most grateful if United States officials attending the G20 Ministerial Meetings would visit the A-bombed cities of Hiroshima and Nagasaki during their visit to Japan.

In closing, we offer our best wishes for your health and every success in your endeavors.

Respectfully,

MATSUI Kazumi
Mayor
The City of Hiroshima

TAUE Tomihisa
Mayor
The City of Nagasaki

Now their average age is over 82 and their ardent wish is nothing but the realization of a world free from nuclear weapons.

Through the visits to our cities, we would like for you to deepen your understanding of the actual damage wrought by a single atomic bomb and the *hibakusha*'s ardent wish for peace. We also sincerely hope that you will share the recognition that a world without nuclear weapons is our common goal, and take actions towards the abolition of nuclear weapons with reason and insight as we call on all world leaders.

Today, more than 14,000 nuclear warheads still remain, and as long as such weapons exist, so too does the danger remain that the horrors seen in Hiroshima and Nagasaki will be repeated, by intent or accident, plunging people into fear and agony. Under these circumstances, we earnestly hope that you, with your significant global influence, will make use of your leadership to pave the way towards the eradication of nuclear weapons, overcoming differences between nations in their positions and approaches.

We, the citizens of the A-bombed cities, will readily welcome you and hope to work with you to rid the world of nuclear weapons.

We would also be most grateful if Singaporean officials attending the G20 Ministerial Meetings would visit the A-bombed cities of Hiroshima and Nagasaki during their visit to Japan.

In closing, we offer our best wishes for your health and every success in your endeavors.

Respectfully,

MATSUI Kazumi

His Excellency Mr. Mark Rutte
Prime Minister
Kingdom of the Netherlands

Request for your visit to the A-bombed cities of Hiroshima and Nagasaki

Excellency:

We hope this letter finds you in the best of health and spirits.

We would like to request that you visit the A-bombed cities of Hiroshima and Nagasaki on the occasion of the G20 Osaka Summit to be held this June.

The atomic bombs dropped on Hiroshima and Nagasaki in August 1945 reduced our cities to ashes in an instant and took many precious lives. Our *hibakusha* who managed to survive, while suffering the aftereffects of radiation and facing discrimination and prejudice, continue to tell their painful stories to ensure that no one else in the world experiences the horror of another nuclear attack. Now their average age is over 82 and their ardent wish is nothing but the realization of a world free from nuclear weapons.

Through the visits to our cities, we would like for you to deepen your understanding of the actual damage wrought by a single atomic bomb and the *hibakusha*'s ardent wish for peace. We also sincerely hope that you will share the recognition that a world without nuclear weapons is our common goal, and take actions towards the abolition of nuclear weapons with reason and insight as we call on all world leaders.

Today, more than 14,000 nuclear warheads still remain, and as long as such weapons exist, so too does the danger remain that the horrors seen in Hiroshima and Nagasaki will be repeated, by intent or accident, plunging people into fear and agony. Under these circumstances, we earnestly hope that you, with your significant global influence, will make use of your leadership to pave the way towards the eradication of nuclear weapons, overcoming differences between nations in their positions and approaches.

We, the citizens of the A-bombed cities, will readily welcome you and hope to work with you to rid the world of nuclear weapons.

We would also be most grateful if Dutch officials attending the G20 Ministerial Meetings would visit the A-bombed cities of Hiroshima and Nagasaki during their visit to Japan.

In closing, we offer our best wishes for your health and every success in your endeavors.

Now their average age is over 82 and their ardent wish is nothing but the realization of a world free from nuclear weapons.

Through the visits to our cities, we would like for you to deepen your understanding of the actual damage wrought by a single atomic bomb and the *hibakusha*'s ardent wish for peace. We also sincerely hope that you will share the recognition that a world without nuclear weapons is our common goal, and take actions towards the abolition of nuclear weapons with reason and insight as we call on all world leaders.

Today, more than 14,000 nuclear warheads still remain, and as long as such weapons exist, so too does the danger remain that the horrors seen in Hiroshima and Nagasaki will be repeated, by intent or accident, plunging people into fear and agony. Under these circumstances, the role of France, a highly influential nuclear weapons state, is ever growing. We earnestly hope that France will make use of its leadership to pave the way towards the eradication of nuclear weapons, overcoming differences between nations in their positions and approaches.

We, the citizens of the A-bombed cities, will readily welcome you and hope to work with your country to rid the world of nuclear weapons.

In closing, we offer our best wishes for your health and every success in your endeavors.

Sincerely,

MATSUI Kazumi
Mayor
The City of Hiroshima

TAUE Tomihisa
Mayor
The City of Nagasaki

His Excellency Mr. Wang Yi
State Councilor and Minister of Foreign Affairs
People's Republic of China

Request for your visit to the A-bombed cities of Hiroshima and Nagasaki

Excellency:

We hope this letter finds you in the best of health and spirits.

We would like to request that you visit the A-bombed cities of Hiroshima and Nagasaki on the occasion of the G20 Foreign Ministers' Meeting to be held in Japan this November.

The atomic bombs dropped on Hiroshima and Nagasaki in August 1945 reduced our cities to ashes in an instant and took many precious lives. Our *hibakusha* who managed to survive, while suffering the aftereffects of radiation and facing discrimination and prejudice, continue to tell their painful stories to ensure that no one else in the world experiences the horror of another nuclear attack. Now their average age is over 82 and their ardent wish is nothing but the realization of a world free from nuclear weapons.

Through the visits to our cities, we would like for you to deepen your understanding of the actual damage wrought by a single atomic bomb and the *hibakusha*'s ardent wish for peace. We also sincerely hope that you will share the recognition that a world without nuclear weapons is our common goal, and take actions towards the abolition of nuclear weapons with reason and insight as we call on all world leaders.

Today, more than 14,000 nuclear warheads still remain, and as long as such weapons exist, so too does the danger remain that the horrors seen in Hiroshima and Nagasaki will be repeated, by intent or accident, plunging people into fear and agony. Under these circumstances, the role of China, a highly influential nuclear weapons state, is ever growing. We earnestly hope that China will make use of its leadership to pave the way towards the eradication of nuclear weapons, overcoming differences between nations in their positions and approaches.

We, the citizens of the A-bombed cities, will readily welcome you and hope to work with your country to rid the world of nuclear weapons.

In closing, we offer our best wishes for your health and every success in your endeavors.

Sincerely,

Her Excellency Ms. Federica Mogherini
High Representative for Foreign Affairs and Security Policy
European Union

Request for your visit to the A-bombed cities of Hiroshima and Nagasaki

Excellency:

We hope this letter finds you in the best of health and spirits.

We would like to express our sincere gratitude to you for visiting the A-bombed city Hiroshima to attend the G7 Foreign Ministers' Meeting in April 2016. We also appreciate that you and other G7 foreign ministers announced the Hiroshima Declaration, emphasizing the need to issue a strong message towards a world without nuclear weapons.

As you know, the atomic bombs dropped on Hiroshima and Nagasaki in August 1945 reduced our cities to ashes in an instant and took many precious lives. Our *hibakusha* who managed to survive, while suffering the aftereffects of radiation and facing discrimination and prejudice, continue to tell their painful stories to ensure that no one else in the world experiences the horror of another nuclear attack. Now their average age is over 82 and their ardent wish is nothing but the realization of a world free from nuclear weapons.
